# Photo Grouping Ideas

**Purpose:** Don't miss a special photo of you and your mom, or of your friends that flew thousands of miles to watch you walk down the aisle! Plan ahead which photo groupings you do and don't want from your professional photographer so you don't have any regrets!

## Directions:

1. Make a check next to each photo groupings you think you will want on your wedding day with your *professional* photographer (the ones that might go on your wall, in a photo album, or on your Christmas card!).
2. Make extra copies or add in extra notes for additional family members to account for with divorces, step-siblings, extra sets of grandparents etc.
3. Choose from the following categories:
  1. **Bridal Party Photos**
  2. **Sibling Photos**
  3. **Parent Photos**
  4. **Grandparent Photos**
  5. **Nieces & Nephews Photos**
  6. **Extended Family Photos**
  7. **Other Photos**
4. This is NOT a list of the order of photos...that will come later. This is merely a brainstorm for you to think ahead about what photos you will want (or won't REALLY care about) after the wedding.
  1. Nailing down this list or AT LEAST getting a ballpark to show your photographer/videographer/coordinator before the wedding will really help determine the schedule (depending on the size of your bridal party and family and guest list) and may even affect how much coverage time you need from your vendors.
  2. Plan ahead so you don't forget anyone AND so that you don't waste time on photos you won't ever print or post or care about.
